Focus

Focus to earn.

Focus is a mobile app for encouraging people to be concentrate
What's this ?

Focus

Information Bang

People's Attention Resource

Scarce Resource

More and more apps are competing for your attention, but we want you to stay focused.

Focus is an app for cultivating concentration. We hope to cultivate people's good habit of putting down their mobile phones and focusing on doing things through incentives.

Inspiration

Focus

I realized that everyone on the team is in such difficulty while I was speaking with them.

We also use calendar applications to manage our lives, yet we are constantly interrupted for a variety of reasons.

We designed the Focus APP to encourage everyone to stay focused through a reward mechanism, and we incorporated the idea of soul–bound tokens to capture and bind the user's on–chain identity permanently. You can show it to your friends and let everyone know what good habits you keep by using the Focus APP. These records will always track your behavioral characteristics, enrich your on–chain information profile, and become part of your identity.

Our goal is to welcome new users to WEB3 and inspire them to explore all the exciting things it has to offer!

Challenge

Focus

We must construct the SBT contracts on Solana since the NFT contracts of Solana cannot currently suit our demands.

We must develop the NFT economic system and connect it with tokens to attain a state of both economic incentives and interesting rewards.

We need to complete product development on the APP rather than the WEB side, which is a new challenge for us who often use the web to develop dapps.

Elements

Focus

Plants types

There are a lot of plant types, which are gradually released as the user grows.

Earning

Completing tasks will be fun. You could gain tremendous benefits or nothing at all.

Markets

Provide markets to trade, buy what you need.

Collecting

If you like collecting, this collection is just for you.

Recording

How do I spend my time everyday? We will provide a complete data analysis service, you can find the answer here.

Box

Users can hold up to 3 boxes, countdown starts when users receive Box, and users can open it when the countdown reaches 0.
Tokenomics

Focus

Game Token

FOT token is a game token. By completing tasks, users can earn tokens that can later be used to trade NFTs.
Governance Token

FMT is a governance token of Focus APP. Users can participate in decision–making in DAO.

NFT–land

LAND NFT is our main NFT and permanent binding,anyone can pay for mint land.

NFT

Decorations and other NFTs can be traded, except for plants.

Wallet

Use the Phantom wallet for the app,
so users can easily join up.

Users can easily buy and sell NFTs
in the market.

Why adopt the solana chain ?

Focus

Low cost
Solana's scalability ensures transactions remain less than $0.01 for both developers and users.

Fast

Solana is all about speed, with 400 millisecond block times. And as hardware gets faster,

so does the network.

Decentralized and secure
Not only is Solana ultra–fast and low cost, but it is also censorship resistant.
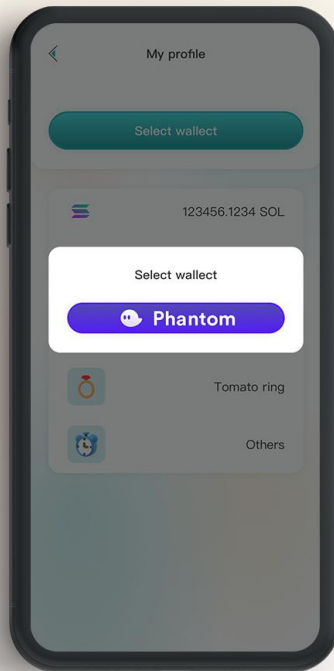

Scale for global adoption
Integrate once and never worry about scaling again.

**Solana is the fastest blockchain in the world and the fastest growing ecosystem in crypto.**

Demo display

Focus

1. Users can call phantom APP to log-in to the Focus APP.

2. You can click the start button to record your own tasks at any time.

3. You can get rewards after completing tasks.

Demo display

Focus

1.Plants can be cultivated after mint LAND.

2.After planting plants, you will get growth value every time you complete the task, and the plants will mature when the growth value reaches the upper limit. You can get rewards after completing tasks.

3.Mature plants will drop boxes with random rewards.
